NROC Update  
November 12, 2020

# Shoreline Adaptation, Inventory and Design Project

- National Coastal Resilience Fund project (2018)
- Partnership between CRMC, URI, RWU and Save The Bay

## Project Goals:

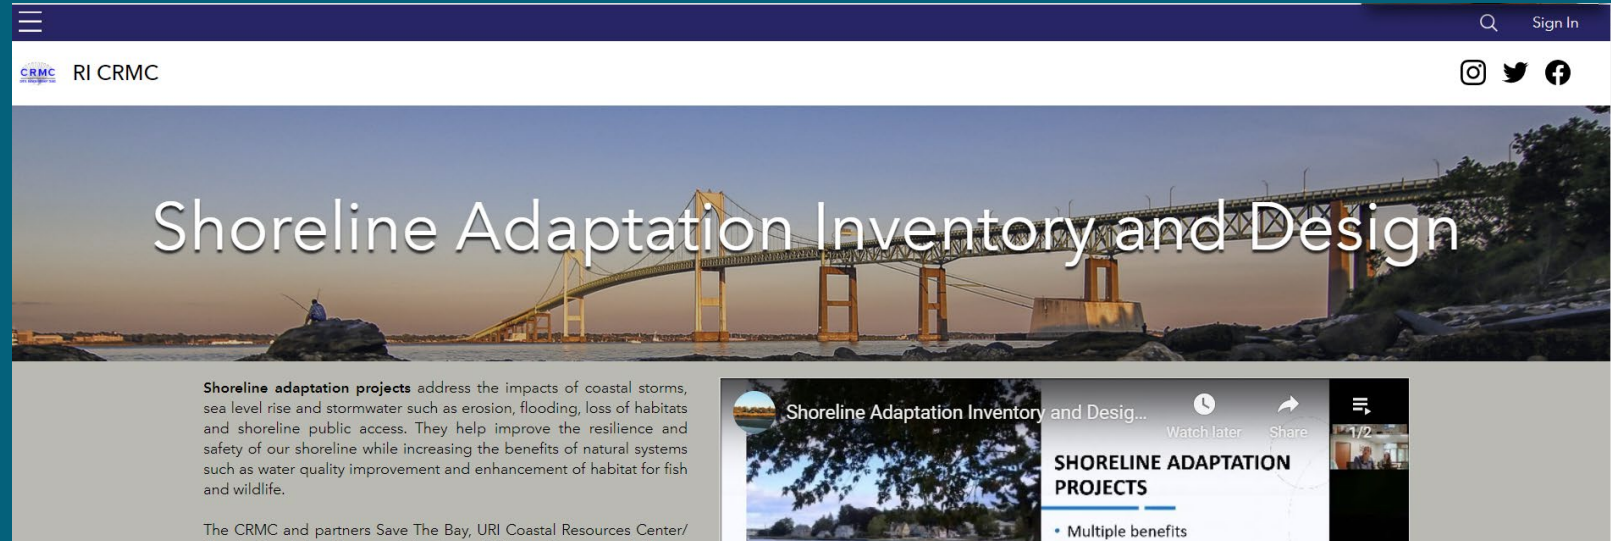

- Create **examples** of adaptation on public lands
- Create a **project pipeline** for construction funds
- Address **impacts** of coastal hazards, loss of habitats and shoreline public access.
- Improve **resilience and safety** while increasing the **benefits of natural systems**.

# Shoreline Adaptation, Inventory and Design Project

Maps projects by category:

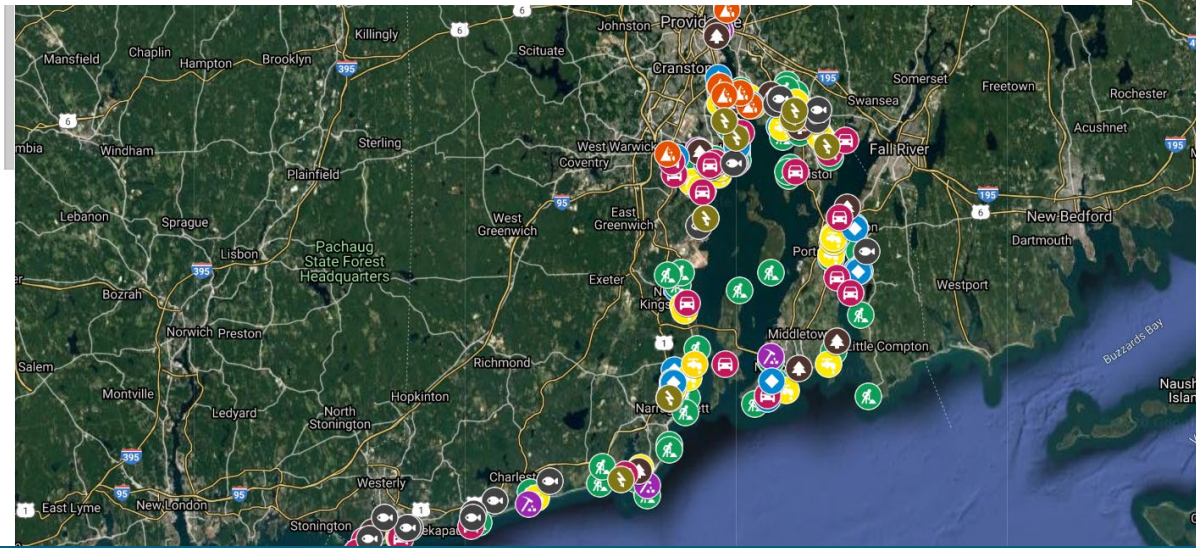

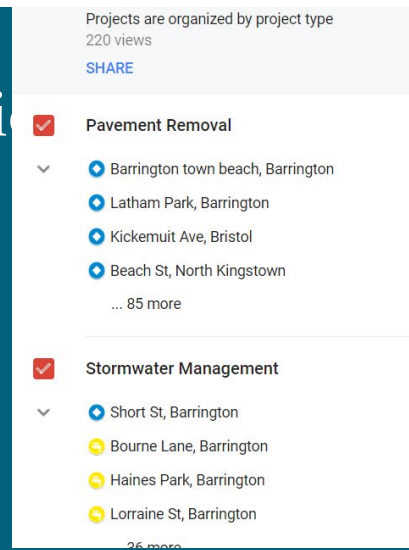

- Pavement Removal
- Stormwater Management
- Structure Removal

[www.crmc.ri.gov/coastalresilience.html](http://www.crmc.ri.gov/coastalresilience.html)

Access

- Bank Re-Grading / Stabilization
- Culvert Redesign
- Utility Removal / Relocation

# Update

- 9 projects selected for design services
- 6 month design contract
- 3 have funding for construction
- At least one additional project applying for construction funds

# Leveraged funds

- Municipal Resilience Program (RI Infrastructure Bank, TNC)
- RIDEM Climate Resilience Fund
- RI Coastal and Estuarine Habitat Restoration Trust Fund
