

# CRG Living Shorelines: Update

- Living shorelines project has been the main focus of CHR Committee over the last few years
- The project is winding down over the next year (end date of 3/31/22)
- Finalized versions of the **literature review and the monitoring metrics and protocols guide.**

# CRG Living Shorelines: Remaining Deliverable

- Develop a **storymap** to showcase case studies for ME – Maquoit, NH – Wagon Hill, MA – Collins Cove, RI – Rose Larissa Park, CT – Stratford Point
- Develop **regulatory guidance**. Proposed next steps include:
  - First, compile and document the permitting pathways for living shorelines in each state.
  - Second, document the real or perceived need to make recommended changes to those permitting pathways. This can be accomplished via desktop work from the project team as well as perhaps folding in discussion/workshop into a future NROC meeting.

# CHR Workplan Update Timeline

- **April 2021** – NROC meeting discuss potential focus areas and regional topics of interest
- **May/June 2021** – CHR Committee discussion, update membership, identify workplan priorities and leads
- **July/August 2021** – CHR Committee members develop workplan tasks
- **September 2021** – CHR Committee members share and discuss proposed workplan tasks, discuss resource needs/opportunities, finalize workplan for NROC fall meeting

# CHR-1: Promote regional dialogue on broad-scale adaptation strategies for responding to the effects of sea-level rise

- Focus on assisting environmental justice communities
- Engage Sea Grant programs
- Support BRIC applications and funded projects
- Help facilitate beneficial reuse

## What else?

- Managed retreat
- ...

# CHR-2: Act on data acquisition priorities and user-friendly tools needed to support planning for and responses to coastal hazards

- Continue to monitor flood (and erosion) risk reduction of living shoreline pilot projects
- Engage NERACOOS

What else?

- ...
